DETAILED ACTION

This Office action is in response to the amendment filed June 19, 2007 in which claim 18 was amended.

The Double Patenting rejection is maintained for the reasons of record.

The rejection of the claim under 35 U.S.C. 103(a) is withdrawn in view of Applicant's arguments.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 18 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear if the mesophase carbon powder is the same as the mesophase carbon particulate. Also, there is no antecedent support for "cooling said green foam" because there is no step indicating that a "green foam" has formed. Also, the claim does not contain positive language that a porous pitch-based foam is formed.

In line 1, "rangin" should read --ranging--. At line 3, "manufacture" should read --manufactured--.
